

# ColorLINE

## Neon-inspired tubing

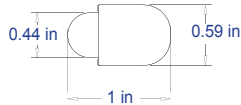

Add stunning neon-like appeal and increased awareness to any building with this patented LED-based rigid tubing system. Completely assembled and sealed tubes are ready for installation. ColorLINE offers our brightest tubing light output, a neon-like profile and innovative lit, mitered corners.

- Slim profile similar to standard neon
- Neutral frosted white color when non-illuminated
- High impact acrylic: UV stable, hydrocarbon insensitive, non-fading
- Convenient, weatherproof connectors between sections
- Can be cut in the field

### SPECIFICATIONS:

#### Dimensions

Width	0.44 in
Base width	0.59 in
Height	1 in
Lengths	2 ft, 4 ft, 6 ft, 8 ft

#### Factory bends

8 in radius (radial and flat bend)

#### In-field bends

Radial bend	19 ft
Flat bend	6 ft

#### Temperature range

-40° C to 70° C

#### Supply voltage

DC 12 V

#### Power used per foot

2.28 W

#### Power capacity

24 ft per 60 W DC 12 V power supply

#### Mounting

Dual-position mounting bracket orients in two directions

#### Power supply

SloanLED DC 12 V

#### Colors

Red, Orange, Yellow, Green, Blue, White (6500 K), Warm White (3200 K)

#### Accessories

Illuminated, Mitered Corners - inside, outside and "step" options

Snap-on, frosted joint covers for clean finish

#### Approvals

UL and cUL recognized, CE Certified, ETL listed

For approximate cut increments and actual length data refer to chart on page 2
