

Modular 60-W

IP68 rated 12 Volt DC Power Supply

The new Mod 60-W is IP68 (Ingress Protection) rated. The IP68 rating refers to resistance to the intrusion of water, even in harsh environments such as rooftops and areas exposed to heavy rain or snow. This innovative power supply is robust, flexible, extremely weather resistant, auto-sensing and carries UL recognition for dry, damp and wet locations.

- IP68 Rated - Ingress Protection 68 is verified resistance to the intrusion of water, even in harsh environments
- Auto-resetting – No fuses to replace or circuit breaker to reset. Short Circuit Protection automatically resets when short condition is corrected
- Simple secondary hook-ups – no minimum load, no dip-switches and no load balancing required
- Modular design – cluster with standard J-boxes to create multiple 60 Watt legs
- Rugged, compact design
- UL recognition for dry, damp and wet locations
- Useable with all SloanLED channel letter modules, ThinLED, ColorLINE and FlexiBRITE

SPECIFICATIONS:

Part number	701507-MODW
Nominal Input	100-240 VAC 47 - 63Hz
Input Current	1 Amp
Output Voltage	12 VDC
Output Current	5 Amps
Power Output	60 Watts
Temperature Range	-40°C to 60°C
Dimensions L x W x H	9" x 2.5" x 1.5" (229mm x 64mm x 38mm)
