

## LiquaLED Controllers

*Controls colors, color-changing and sequencing via built-in software program*

- Patent Pending control technology
- Compatible with all LiquaLED Cluster Lights, Bullet Lights and Accent Lights
- UL Approved - File Number #E242370
- Serviceable fused input for safety
- Moisture resistant electronics
- Easy to mount anywhere in spa's equipment area Full Spectrum Color Control

### LiquaLED Control 100

- Controls and synchronizes all LEDs
- Controls up to 100 points of light plus one cluster
- Controlled by spa pack
- Powered by spa's stereo power supply or external SloanLED power supply
- Replaces large fiber optic systems

### LiquaLED Control 40

- Controls up to 40 points of light plus one cluster
- Controlled by spa pack
- No external power supply required
- Cost effective control device

Item Description	LiquaLED Controllers	
	Control 100	Control 40
Part Number	701712-DLO	701678-DLO
Max Points of Lights (not including clusters)	100	40
Required Input Voltage - AC	12 V AC from Spa Pack	
Required Input Voltage - DC	External 12 V DC Supply	No External DC Supply Required
Typical Max Output Current / Power	2 Amps / 24 Watts	1 Amp / 12 Watts
Controller Dimensions	3.25" x 2.75" x .75"	3.25" x 2.75" x .75"
On/Off Control	Spa pack light on/off switch on top-side control panel
